

## QUALITY POLICY STATEMENT.

***Berck Ltd., are dedicated to the principal of never ending improvements in product quality, reliability and customer service.***

Our vision is to be a leading supplier of components and assemblies to a variety of business sectors, providing our customers with the highest level of value, our employees with a challenging and participative workplace and our investors with the best possible long term returns.

Our objective is to always supply to our customers, high quality products and customer service that conform exactly to stated or agreed specifications/order requirements.

The establishment of a QEMS is therefore the foundation to establish a company culture centred upon continuous quality improvement.

The QEMS is based on the requirements of BS EN ISO 9001, IATF 16949 and BS EN ISO 14001 and Berck are fully committed to fulfilling these requirements. The system has been developed to enable full integration of in-house, industry approved and client specific requirements.

The aims of the QEMS are to prevent quality and environmental defects / issues at the earliest stage possible. This in turn improves the overall efficiency of the organisation and assists in the compliance with our annually formulated quality and environmental objectives.

The QEMS will ensure that all products and services will meet customer specific requirements and provide satisfaction with regard to product reliability, quality, delivery and customer service.

This policy will be communicated to all staff and any necessary external interested parties i.e. sub-contractors that may be working on our behalf. It will be available to the public, via the company web site: <http://www.bercklimited.co.uk>

Top management will formulate quality improvement objectives at least on an annual basis, during management review meetings and will ensure the routine monitoring, measurement and continual improvement of Berck QEMS and performance.
