

ENVIRONMENTAL POLICY STATEMENT.

Management of Berck regards the promotion and preservation of the environment as a mutual objective for Management, employees and all interested parties associated with the company.

We are fully committed to protecting and continually improving the quality of our working and local environments. We are committed to working pro-actively with, and communicating this policy to our employees, clients, contractors and all other external parties to achieve a safer, cleaner, healthier and sustainable environment. This will fulfil present and future human and legislative needs.

The objectives of this policy are to:

- Reduce the production of waste and encourage wherever possible it's re-use or recycling.
- Encourage greater staff involvement through environmental awareness training, the understanding of environmental issues and continual environmental improvements.
- Encourage staff to become more efficient and sustainable in their use and the preservation of energy.
- Evaluate environmental impacts when considering new products, plant, equipment, buildings and processes.
- Prevent pollution and nuisance.
- Manage the correct, safe and effective disposal of waste materials and products through approved and qualified agencies/providers.

Berck will comply with environmental laws, regulations and other requirements relevant to our business. We will closely monitor our production, office administration and warehouse processes to ensure that the company's operations are effectively managed and controlled in accordance with the requirements of BS EN ISO 9001, IATF 16949 and BS EN ISO 14001.

This policy will be communicated to all staff and any necessary external interested parties i.e. sub-contractors that may be working on our behalf. It will be available to the public, via the company web site: <http://www.bercklimited.co.uk>

Top management will formulate environmental improvement objectives at least on an annual basis, during management reviews and will ensure the routine monitoring, measurement and continual improvement of the Quality and Environmental management system and performance.
